

BANGLADESH SEVERE WEATHER SITUATION UPDATE

Published on Oct 24, 2022 12:00 BdST (+06:00 UTC)

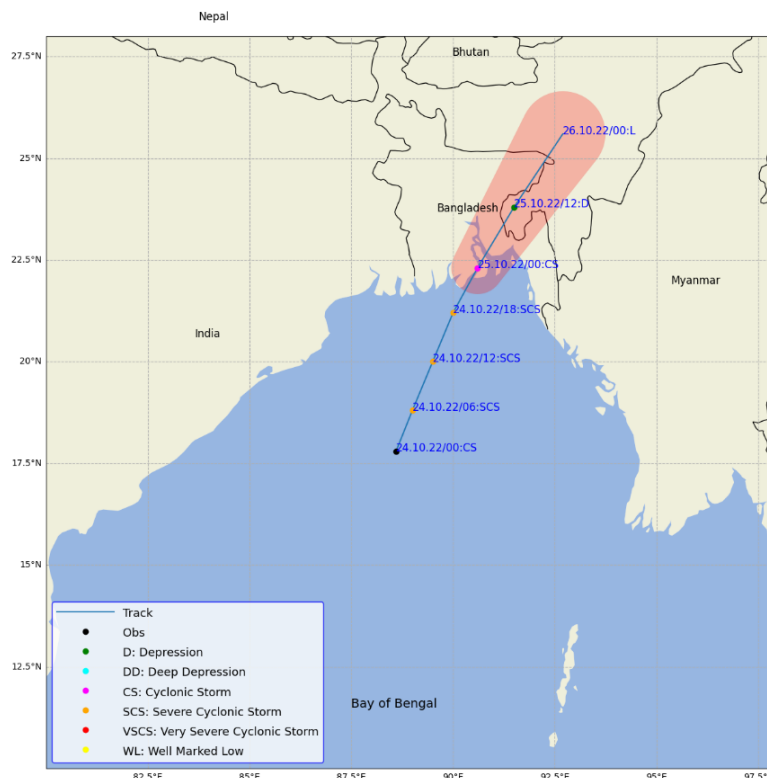

Situation Overview (Probable Cyclone Sitrang)

According to Bangladesh Meteorological Department, the Cyclonic Storm ‘Sitrang’ pronounced as “Si-Trang” over east central Bay of Bengal and adjoining westcentral bay moved north-northwestwards over east central Bay of Bengal and adjoining westcentral bay and north bay (Near Lat: 17.8N, Long: 88.8E) with a maximum sustained wind speed of 62 Km/h (rising up to 88 Km/h) within 54 km of cyclone center. It is about 525 km away from south-southwest of Mongla port. North Bay and adjoining coastal areas of Bangladesh is likely to experience wind gust/squall ranging from 50 – 60 Km/hr in addition to the heavy (44-88 mm) to very heavy (88 + mm) rainfall. Maritime ports of Chattogram, Cox's Bazar, Mongla and Payra have been advised to keep hoisted local cautionary [signal number Six \(6\)](#). River Ports are advised to hoist riverine danger [signal number Three \(3\)](#). All fishing boats and trawlers over north bay and deep sea have been advised to come close to the coast and proceed with caution. They are also advised not to venture into the deep sea.

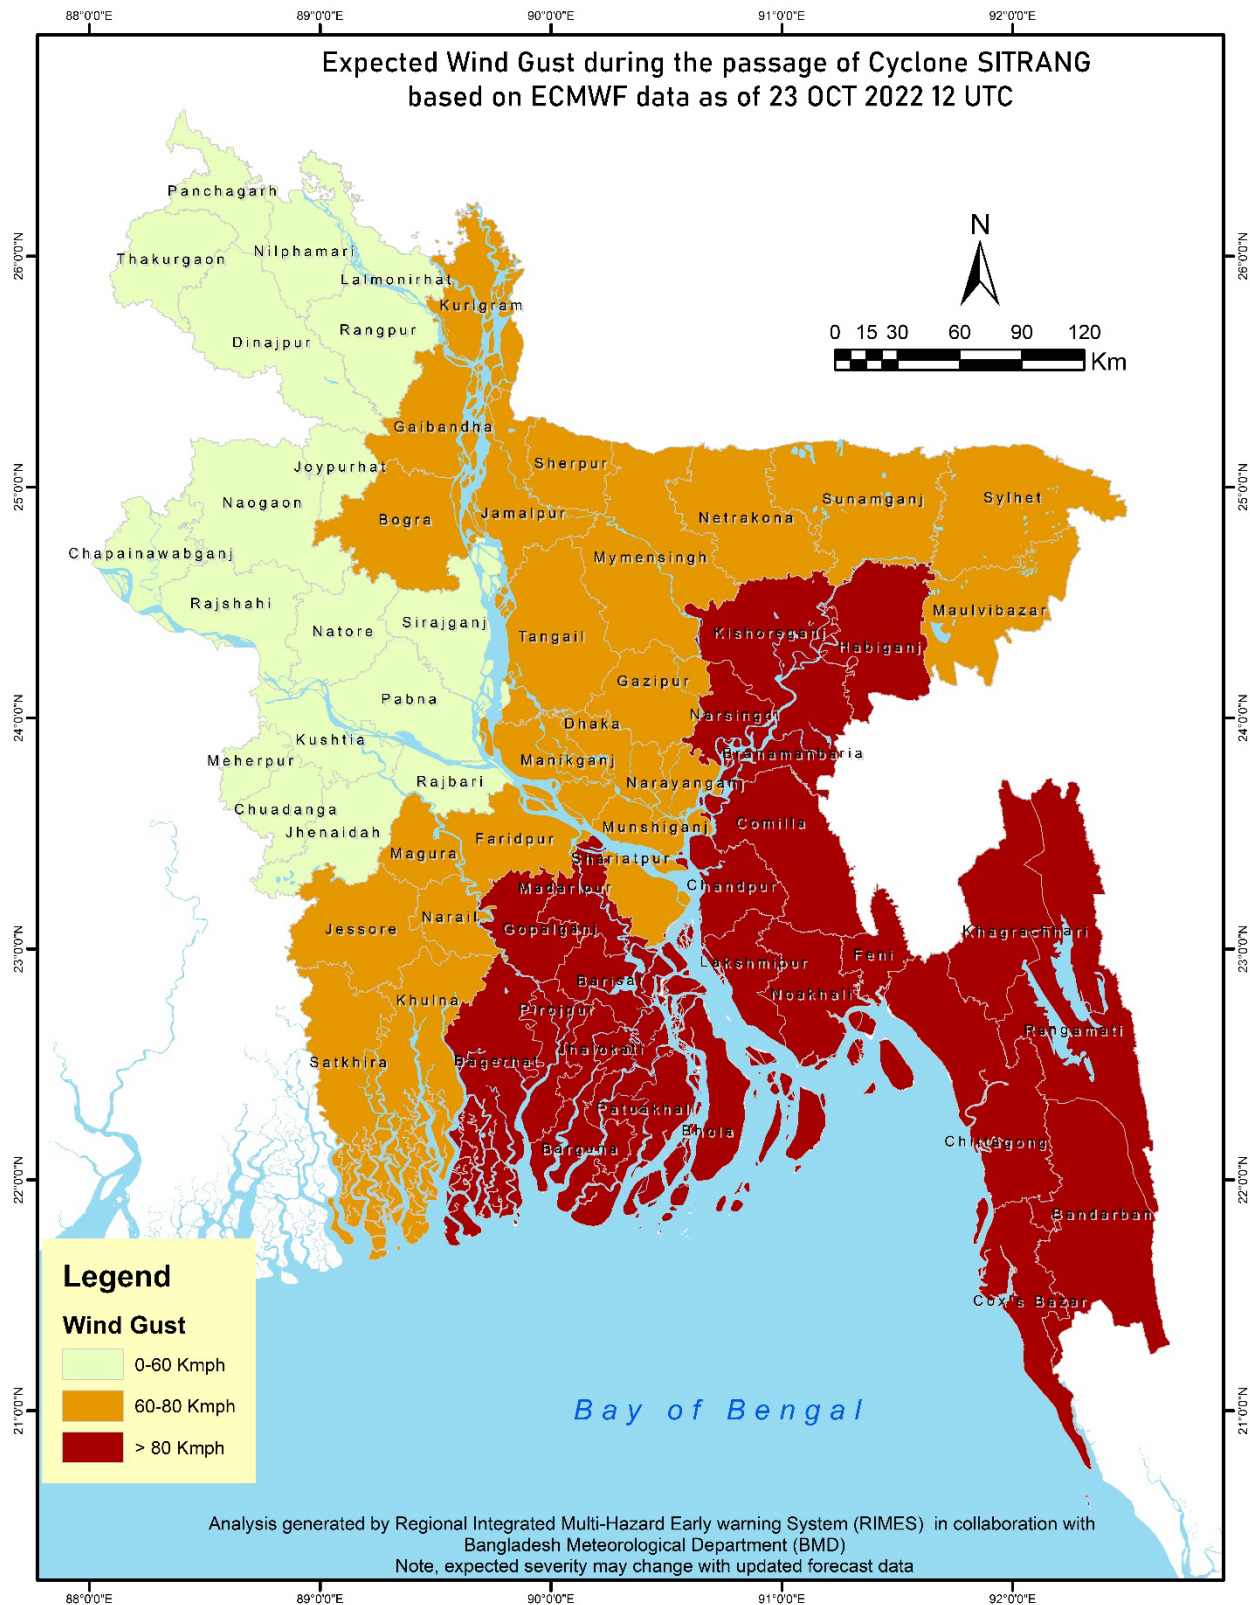

The cyclonic storm “SITRANG” is very likely to continue to move north-northeastwards and intensify further into a severe cyclonic storm during next 12 hours. Continuing to move north-northeastwards thereafter, it is very likely to cross Bangladesh coast between Tinkona Island and Sandwip close to Barisal around 25th October early morning. Low lying areas of coastal districts: Satkhira, Khulna, Bagerhat, Pirojpur, Jhalokathi, Barguna, Patuakhali, Bhola, Barisal, Laxmipur, Chandpur, Noakhali, Feni, Chattogram, Cox’s Bazar and their offshore islands are expected to be inundated by a storm surge of 5 – 8 feet above astronomical tide.
